Re: HANC Resolution related to Noise and Light Issues from the West Basin Port Operations

To whom it may concern,

Thank you for the letter dated April 7, 2016 and accompanying copies of two resolutions passed by the Harbor Alliance of Neighborhood Councils at your April 6, 2016 meeting concerning noise and light issues from the West Basin port operations. The resolutions listed are almost identical to the ones recently received from the Northwest San Pedro Neighborhood Council (NWSPNC) on February 22, 2016. As indicated in my response to the NWSPNC, your comments and suggestions have been submitted as part of the China Shipping Container Terminal Project Supplemental Environmental Impact Report (EIR) and the Yang Ming Container Terminal Redevelopment Project EIR.

An EIR serves to inform governmental agencies and the public of a proposed project's environmental impacts. Each significant impact must be analyzed and addressed with proposed mitigation measures and alternatives that would reduce or avoid that impact. Governmental agencies and the public will have ample opportunity to comment on these Draft EIRs once they are complete and made available. The Draft EIRs for both projects are expected to be completed later this year.

Going forward, please include your name and title with the HANC on all correspondence and be sure to copy Port of Los Angeles Community Affairs Advocates, Augie Bezmalinovich and Cecilia Moreno.

Sincerely,

EUGENE D. SEROKA
Executive Director
