RE: San Pedro Urban Greening Implementation Plan

Dear Larry Smith:

The Central San Pedro Neighborhood Council resolved on 12/12/17 to adopt the San Pedro Urban Greening Plan.

The council believes that it is vitally important to increase the amount of appropriate plants in San Pedro. Plants filter the air, carbon cycle, provide habitat for native species and are beautiful. Council members plan to review implementation of the plan in our committees quarterly.

Sincerely,

Christian Louis Guzman
Board Member and President
On behalf of the Central San Pedro Neighborhood Council
