On January 6th, the Harbor Area neighborhood councils met with local Chambers of Commerce to address the Port’s Public Access Facility Funding Policy and to discuss a resolution that would be presented to the Port.
   
   b. President James Allen has been to two meetings with Port officials on the subject. Their proposal is attempting to reduce the amount of money they are spending on developing the waterfront in San Pedro and Wilmington (the LA Waterfront). There are ongoing discussions and it is unclear at this point as to what the resolution is going to be. The resolution being proposed tonight addresses the mains concerns of the neighborhood councils (NC’s). This is the first time in the past 30 years that Mr. Allen has seen all the NC’s and Chambers come together to collaborate on an issue that affects the entire community.

   c. Pat Nave reported that the Northwest San Pedro NC was the first to address this and all the leaders are agreeing that we need to speak with one voice. The resolution is formalizing what the NC thinks about the issue so the Port can see that everyone is serious.

   d. The following Resolution was presented for approval by the Board:

   **RESOLUTION Re: Public Access Facility Funding Policy**

   WHEREAS, the Port of Los Angeles ["Port"] is proposing a Public Access Facility Funding Policy ["Policy"] that limits the amount the Port will spend on constructing the improvements promised in its 2009 approved waterfront development EIRs [the "Funds"]; and
   
   WHEREAS, the Port also proposes to limit funding for maintenance and operation expenses for public access facilities; and
   
   WHEREAS, many of the improvements included in those EIR’s have not been constructed and have now been removed from the Port budget and Capital Improvement Program [CIP];
   
   WHEREAS, the Port proposes to deduct environmental expenses and threatened litigation and settlement expenses from the Funds; and
   
   WHEREAS, many Public Access Facilities in the Port are actually mitigations constructed for specific Port industrial improvements; and
   
   WHEREAS, Port financial reports, including the 2014 Harbor Revenue Fund report, show that the Port has sufficient funds in its Unrestricted Cash accounts, other accounts, and Operating Income accounts, currently and on average at least over the last ten years, to fund the improvements listed herein; and
   
   WHEREAS, the Port has not included sales tax revenue, the City share of possessory interest taxes, business license taxes, bed taxes, impacts on employment, or small business opportunity in its calculation of return on investment in Public Access Facilities; and
   
   WHEREAS, we appreciate the Port’s past efforts and accomplishments to improve the LA Waterfront and urge the Port to continue fulfilling its obligation to develop and improve the tide and submerged lands for the benefit of the people of the State of California, especially the substantial land areas of the Port that are not suitable for industrial development but are suitable for Public Access uses; and
   
   WHEREAS, the Port has proposed its Policy without soliciting input from Neighborhood Councils, thereby raising issues addressed in Sections 907 and 910 of the City Charter, such as notice, opportunity to provide input, and monitoring of City services;
   
   NOW THEREFORE, the Central San Pedro Neighborhood Council [CENTRALSPNC] hereby requests that the Port table its draft policy and instead work with the five Neighborhood Councils in the harbor area and the three local Chambers of Commerce to revise the draft policy in a way that is supportable by the Port, the Neighborhood Councils, and the Chambers; and

   FURTHER RESOLVES that the Port, in its 2015-2016 budget and Capital Improvement Program ["CIP"], fund the following six projects [the "Projects"] from the approved 2009 EIR’s without applying any limitations contained in the proposed Policy:
a. Complete the final design work for the Wilmington Waterfront Development Project, using the approved Wilmington EIR, the Port Master Plan and Wilmington’s Community Guiding Principles.
b. Design and construct the Sampson Way/Harbor Blvd realignment.
c. Enhance access to Wilmington waterfront via Avalon which is direct, functional, and aesthetically pleasing so it enhances rejuvenation of downtown Wilmington via pedestrian, bicycle, and vehicle access to Banning’s Landing/waterfront prior to closure of Avalon and Fries.
d. Complete the promenade South of the Town Plaza through Ports of Call to Alta Sea.
e. Complete the promenade along the Wilmington Waterfront (demo Catalina Freight buildings) with an Observation Tower, dedicated pier(s) which include dock space for Wilmington Youth Sailing Center, LAMI to finish tall ship, and restaurant/retail development.
f. Construct the Town Plaza at the foot of 6th street.

THE CENTRALSPNC FURTHER RESOLVES, that in addition to including the Projects in its 2015-2016 budget and CIP, the Port instruct its staff to proceed this fiscal year with preparing the specifications, RFP’s, contracts, bids, etc. and award the contracts for the work on the Projects; that the Port provide the Neighborhood Councils with quarterly status updates regarding the Projects; and
THE CENTRALSPNC FURTHER RESOLVES that in redrafting its policy, the Port recognize that
a. Substantial portions of the Port lands are not suitable for industrial development and can only be developed for non-industrial, visitor serving facilities including recreation and education, and that the Port’s general plan recognize the importance of their stewardship of these lands.
b. Such non-industrial facilities may have a return on investment that include revenues to the City and public [such as sales taxes, business license taxes, City share of possessor interest taxes, bed taxes, job growth, small business opportunities] if not the Harbor Revenue Fund, and should be included in the Port’s return on investment calculations.
c. Many facilities the Port considers to be Public Access Facilities, including some of the Projects, are mitigation for the recognized environmental impacts of industrial facilities, and
d. The costs for the facilities included in [c] above, and for their maintenance and operation, should be considered as costs of the related Port industrial facilities and operations.

e. Carrie Scoville’s commented on the impacts of the Port’s Plan on San Pedro and Wilmington. She emphasized that this is the first time that the community has come together to unite for a good quality waterfront for everyone. This is a government owned Port for the city and the people of Los Angeles. Motion by Carrie Scoville to adopt the Resolution as presented above.
