The vote was taken, and the motion to adjourn was approve.

The results were 9 yes, and 0 no.

At 7:45 the meeting was adjourned.

Chairman Report: The committees first meeting was an engaging experience that resulted in some direct identification of goals for the committee. The largest objective made apparent was empowerment, engagement, outreach and collectivism to serve The LGBT Community and its allies. The committee will compile a resource list for community members, focus on health information gathering and distribution to the public and organizing events such as health fairs to
educate our community. To partner with community members to create a mentor program. To identify funding available for resources, and to partner with local organizations to guide those being assisted into volunteer programs. We want to break down barriers to encourage Empowerment, Visibility, and Activism. We will have a strong emphasis to work with youth to help guide and protect LGBT+ Allies into being strong members in the community.
