

At our August 14th Central San Pedro Neighborhood Council Board and Stakeholder meeting, a representative from the council office will speak about the council member's homeless policies in San Pedro and Council District 15.

We are collecting questions from the public about the homeless issues within our neighborhood. We value your input. Your questions and suggestions will be delivered to the council office for the representative to address.

In addition to delivering your questions to the council office, we will be collecting homeless related questions you may have for the Mayor's Office, LAPD and the Bureau of Sanitation.
