HARBOR COMMISSION APPOINTMENTS

Dear Mayor Bass,

We appreciate your nominations of community activists to the Board of Harbor Commission as we'd like to see more environmentally labor friendly commissioners on this commission. As you know the Port of LA holds an immense socio-economic impact of the lives of both the workers and communities surrounding the POLA. Along with the Port of Long Beach, POLA is also the largest source of air pollution in all of Southern California, as such we would appreciate and advise that you appoint some local environmental justice representatives to this commission who are familiar with the decades old issues impacted by the operations of the port.

We, as the Central San Pedro Neighborhood Council stand ready to help you with these appointments and urge you to select from the many well qualified people from the harbor area to move forward with the climate change zero-emissions and quality of life issues related to the Port of LA.

Sincerely,

Matthew J. Quioco

Matthew J. Quioco
CeSPNC Board President
