FOR PLANNING PURPOSES

Caltrans to Host a Virtual Public Meeting for a Multimodal Project on Western Avenue from San Pedro to Torrance

Los Angeles – The California Department of Transportation (Caltrans) will host a virtual public meeting on a multimodal pavement project along Western Avenue (State Route 213) from 25th Street in San Pedro to Interstate 405 (I-405) in Torrance. The project will include bike lanes, upgraded crosswalks, bicycle-oriented signboards, curb ramps and sidewalks.

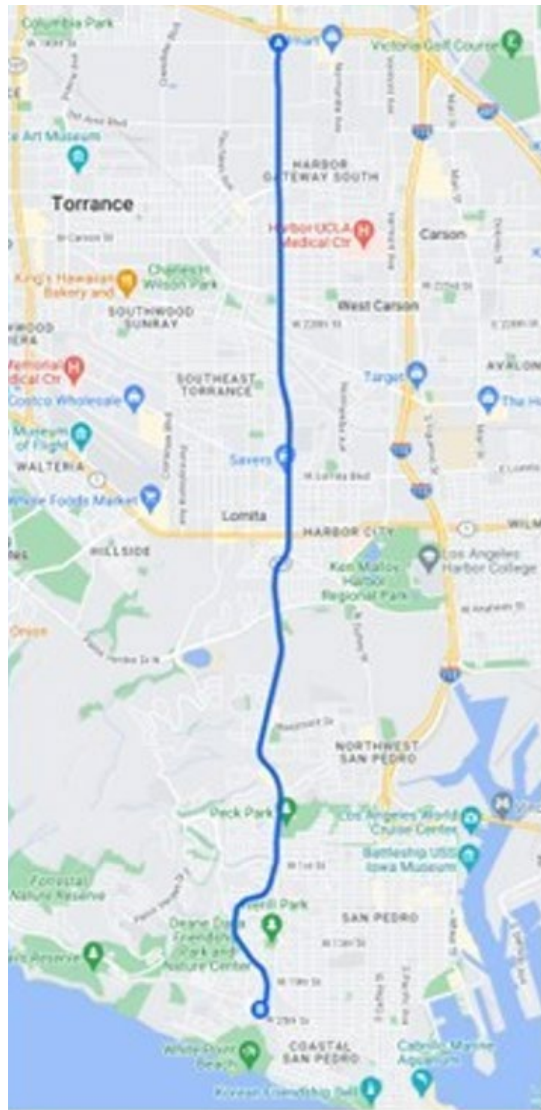

Who: Caltrans personnel, residents, community members, and neighborhood organizations

When: Wednesday, June 12 from 6:00 pm to 7:00 pm

Where: Via Webex: bit.ly/westernwebex, password: westernavenue

What: Caltrans will host a public virtual meeting to inform South Bay residents about a new pavement project on Western Avenue from San Pedro to Torrance. In addition, Caltrans invites residents to submit comments online in English or Spanish by visiting http://bit.ly/western_ave.

Why: Caltrans is planning to enhance accessibility and safety for pedestrians and cyclists by adding bike lanes and other pedestrian-friendly features along Western Avenue (State Route 213), from 25th Street to I-405. By adding and improving bicycle and pedestrian access on Western Avenue, community members will feel safer cycling or walking to destinations along the route. These features will help increase accessibility for non-vehicular travelers and will contribute to the growing multimodal network within the region.
